

Join the Telligen Beneficiary and Family Advisory Council

Focused on Healthcare Quality Improvement for People with Medicare, Families and Caregivers

VISION STATEMENT

Telligen creates partnerships with patient advisors In Colorado, Illinois, Iowa, and Oklahoma. These advisors help us keep patients at the heart of our work to improve healthcare quality. Patient advisors include people with Medicare, their families, caregivers and advocates. By sharing their healthcare experiences with us, patient advisors empower Telligen and its partners to improve healthcare quality and value for all.

About Quality Innovation Networks and Quality Improvement Organizations (QIN-QIOs)

The Centers for Medicare & Medicaid Services leads a national healthcare quality improvement program. The program is implemented locally by an independent network of quality improvement organizations (QIOs) in each state and territory. We convene providers, practitioners, and patients to build and share knowledge, spread best practices, and achieve rapid, wide-scale improvements in patient care, population health, and healthcare costs for all Americans.

This material was prepared by Telligen, the Medicare Quality Innovation Network Quality Improvement Organization, under contract with the Centers for Medicare & Medicaid Services (CMS), an agency of the U.S. Department of Health and Human Services. The contents presented do not necessarily reflect CMS policy. This material is for informational purposes only and does not constitute medical advice; it is not intended to be a substitute for professional medical advice, diagnosis or treatment. 12SOW-QIN-QIN-11/15/19-3538
